Video Games

Fashion Design

Brewery Branding

Outdoor Recreation

Espresso

EDUCATION

2013 – 2017   **B.A. Digital Design**
Seattle University

2017 – 2018   **Certificate: Full Stack Web Development**
The Coding Bootcamp at UNC - Chapel Hill

EXPERIENCE

2016-2017   **ARTIST ASSISTANTSHIP |** *Nan Wonderly*
Nan Wonderly is an abstract tin collage artist. I worked for her through the Seattle University McMillen Artist Assistantship Program, helping her prepare tin and the wooden bases for her pieces. I worked with her to develop a simple portfolio website while continuing to assist her in her artistic process.

Summer 2016   **PRINT DESIGN INTERNSHIP |** *Holden Village*
Holden Village is a Lutheran-run spiritual retreat center located in the heart of the North Cascades. I worked under Chuck and Peg Carlson-Hoffman, former art directors at Disney and Hallmark to rework the Vespers '86 worship bulletin and the guest information book, two of Holden's most used print documents.

Spring 2016   **BRANDING PACKAGE |** *Kellyco Enterprises*
I was requested by the owner of Kellyco to create a branding package and style guide for use on their social media platforms.

OBJECTIVES

NOW: Obtain a full-time job as a graphic designer or web developer in the Seattle area where I can assist and learn from experienced professionals in the field while growing as both a designer and developer.

FUTURE: Work as a full-stack web developer, hike and raft as many backcountry miles as I can, and learn at least two more languages - not just the coding ones.
